Project Description

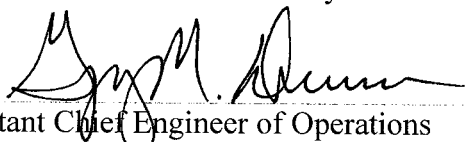

The project is the third phase of a sidewalk/ streetscape renovation and enhancement project in Dickson, TN. This phase of the project begins on W. College Street from the intersection at Main to the intersection at Mulberry and on Main St. from Walnut St. to Murrell St.

Justification

Per the Code of Federal Regulations, 23 CFR 635.411, justification can be made that the item is essential for the synchronization with existing facilities. The above mentioned items have been used in previous phases of the project and in order to maintain consistent aesthetic quality between this (and future) phases of this project, these specific manufacturers/ models have been specified. In addition, consistency with previous phases will reduce the amount of storage facilities for replacement parts and lower maintenance costs through simplification.

If you have any questions or comments, please contact Neil Hansen, Enhancement Coordinator, at neil.hansen@tn.gov.

I, Jim Moore, Director of Program Development and Administration of the Tennessee Department of Transportation, do hereby certify that in, accordance with the requirements of 23 CFR 635.411(a) (2), the patented or proprietary item(s) listed above are essential for the synchronization with existing facilities.
